

# Milwaukee Metropolitan Sewerage District

## North 30th Street Corridor Wet Weather Relief- East: Contract 2

*The project is managed by the Milwaukee Metropolitan Sewerage District (MMSD) in conjunction with the City of Milwaukee Department of Public Works (DPW).*

**Start Date: August 15, 2016 – Anticipated Completion: Fall 2017**

### Project Overview

The project consists of installation of a concrete box storm sewer from the intersection of North 27th Street and West Hope Avenue, north to W. Roosevelt Drive, and west to North 30th Street. From there, the box storm sewer extends to two storm water retention basins: the east storm water retention basin and the north storm water retention basin. The basins will include landscaping, pathways and plazas, and site lighting. The project will also include new concrete pavement and curbs and gutters on North 27th Street, West Roosevelt Drive, and North 30th Street.

### Project Timeline

The project will be accomplished in eight phases. Work began on August 15, 2016. Work on Phases 1, 2, 3 and 4 is nearing completion, and the contractor is moving to Phase 5 of the project:

- **Phase 5** - Construction of the box storm sewer in North 27th Street from West Roosevelt Drive to West Hope Avenue. Two-way traffic will be maintained - one lane in each direction - while storm sewer construction is occurring. It is anticipated this phase of construction will begin in February 2017 and continue through June 2017.

### Parking, Pedestrian and Driveway Access

On-street parking will not be available during construction. Pedestrian access will be maintained to abutting properties and businesses during construction with the least amount of inconvenience. MMSD staff and the contractor will work to minimize the amount of time any driveway access is restricted, and will notify the property owner 48 hours in advance of any driveway work.

### Working Hours

Work is allowed from 7:00 a.m. to 5:00 p.m., Monday through Friday, and 7:00 a.m. to 12:00 noon on Saturdays. The contractor cannot work outside these hours without prior approval from the MMSD.

## Bus Routes

**The #27 Street** – Service on North 27th Street will be maintained throughout this phase of the project. The bus stops at North 27th Street and West Roosevelt Drive and North 27th Street and West Hope Avenue may be temporarily relocated during construction of the box storm sewer on North 27th Street.

## Communications

The Milwaukee Metropolitan Sewerage District and City of Milwaukee Department of Public Works will have staff overseeing the various portions of the work:

**Resident Engineer:** Will address concerns with the construction contractor.

**Resident Inspector:** Will be on-site fulltime to oversee the contractor's work and ensure that the concerns of the public are being addressed.

**City of Milwaukee Support for Business Liaison (SBL):** Will provide information about the construction, and share timelines and procedures via construction updates with businesses and other key organizations. The SBL also coordinates with the Resident Engineer and the Resident Inspector to resolve concerns from businesses and residents.
